

“Every Seafarer Becomes a Shipowner”

The Vision: Maritime DAO aims to transform every sailor and cadet into a co-owner of ships, enabling them to earn monthly profits. Using blockchain technology, we fractionalize ship ownership, tokenize it, and offer it globally via our marketplace.

STAGE 1: We are purchasing Motorboat LOTOSS & we invite you to take a part:

Purpose: Form a community to co-purchase the LOTOSS vessel and register it under Maritime DAO LLC.

Duration: Stage 1 participants are part of the project for approximately 6–12 months, at which point they exit automatically.

Benefits: 30-50% value-based return as appreciation for early support:

Recommended participation amount 1000 - 5000 euro

Extra Bonus: A 4–7 day onboard stay, scheduled in coordination with the project team.

Specifications:

Built as Ice class 1973 Pilot Boat

Length - 17.8 m

Width - 4.66 m

Full Displacement - 58 t

Draft empty - 1.39 m

Speed - 10 kn

Engine - Volvo Penta 400 HP

Generator - Iveco Daily 41.2KW

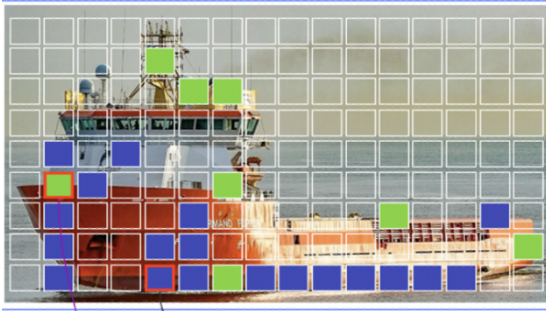

2 Cabins, 4 beds, 2 recreation rooms, galley, WC+Shower

Exit: After the 6–12 month cycle, Stage 1 contributors complete their part in the project and can exit or continue to participate in Stage 2.

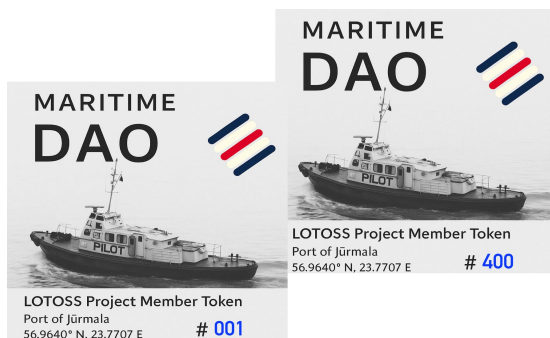

STAGE 2: Tokenization & DAO Ecosystem Participation

When It Begins: After the vessel is fully acquired and registered under Maritime DAO LLC.

What Happens next :

- The vessel is activated for operations such as:
- Short-term rentals (Airbnb-style stays)
- Onboard entertainment/events
- Offshore support services (e.g., wind surveys)

- Tokenization - A set of 400 unique utility tokens registered on blockchain, will be created and offered publicly.

These tokens grant access, perks, and engagement rights within the Maritime DAO system.

NOTE: Blockchain knowledge is not necessary to participate.

Why Join Us?

- ☐ Help pioneer a new model of decentralized, tokenized maritime ownership.
- ☐ Gain experience, access, and recognition in a project that blends real-world assets with blockchain community coordination.
- ☐ Be part of the first DAO-owned vessel in a growing ecosystem committed to giving ownership back to seafarers.

This is not an investment offering – it's a collaborative ownership initiative.

About Maritime DAO LLC: Our Ecosystem:

Registered in the Marshall Islands under progressive blockchain legislation (Reg. No. 10087-24).

Project is managed by experts from multiple fields:

Maritime,
Business Administration,
IT (Web2 + Web3 Blockchain)
DAO (Decentralized Autonomous Organization),
Finance.

Project Leader: Captain Gints Adams

Gints Adams

Project Captain / Founder

22 years in Maritime industry, Master Mariner, MSc in Maritime Transport, MBA in Port Management. Working as a Fleet Master for Offshore Vessel Fleet, delivering value to crews and shipowners for 6 years. I enjoy unexpected dynamics and everyday development. Thinking outside the Box, working in the Box. Creator of "Insta GreenTravel" - 4G/5G remotely operated ships during 2019/20. "Career development program for seafarers" 6 modules program. Multiple success stories. Blockchain passionate since 2021.
